HOW IT WORKS

Booking:

At the moment, bookings can only be made via email, phone call, or at the front desk. There are currently no online booking capabilities for this room. You can contact us at:

- info@soundhousestudios.com
- 604-875-8785

Using the Suite:

Once you're in and have settled your equipment make sure you follow these steps!

1. Plug the audio interface into your laptop before turning anything on. The interface will automatically turn on.
2. If you're a Mac user, no drivers need to be installed and the interface should work on its own! If you're a Windows user, you'll have to download and install the SSL2+ Driver from the following link: <https://solidstatelogic.com/support-page/downloads> and select SSL2+ MKII ASIO/WDM Driver after selecting the SSL2+ MKII product from the drop-down menu.
3. Once the interface is plugged into your laptop, you can proceed to say "Hey Alexa, **TURN ON MONITORS**" and the monitors will be turned on and you should be ready to start working!
4. Once you're done and ready to leave, you must first say "Hey Alexa, **TURN MONITORS OFF**" **before** unplugging the interface from your laptop.

RULES

**NO FOOD
OR DRINKS**

NO SMOKING
(or vaping either)

**PLEASE BE
OUT ON TIME**

**Support us and the rest of the community in
keeping the studio clean and having bookings
moving in and out on time!**
